[1] SDG1: NO POVERTY  
 [1.3] University anti-poverty programmes  
 [1.3.2] Bottom financial quintile student success

## Description:

Universitas Indonesia in cooperation with the Ministry of Research and Technology, Technology and Higher Education organized the Bidikmisi Program. This program is a financial assistance program for prospective students who have financial limitations but have impressive academic potential to be able to study at a well-known university. The scholarship is intended for students of regular and vocational undergraduate programs.

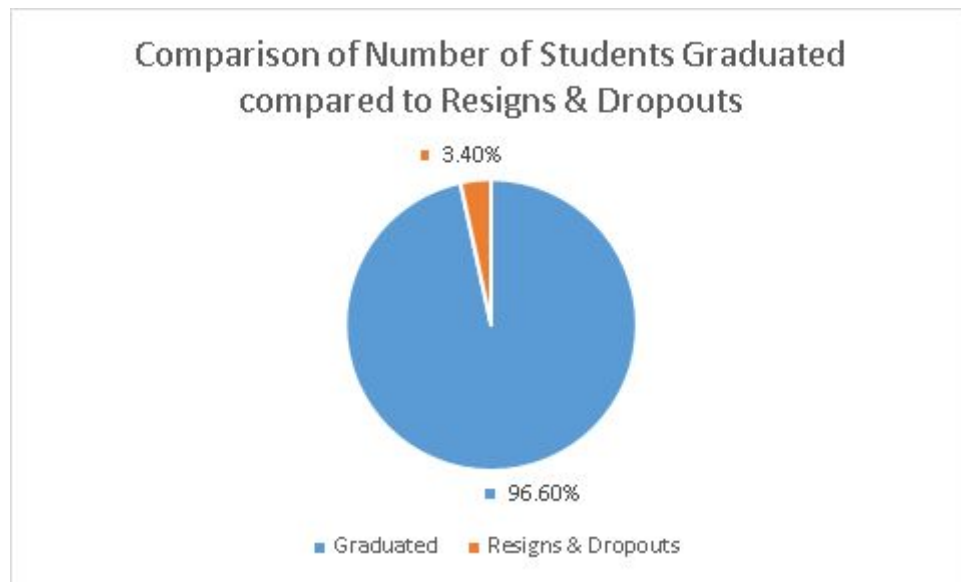

The collaboration in implementing the Bidikmisi Program for UI students started in 2010. In 2019, 2,135 UI students joined the Bidikmisi Program, and as many as 96.6% of these students successfully completed their education at UI. The university monitors the recipient's GPA and cumulative GPA and reports it regularly to the Ministry.

Student participation in the program may be canceled for the following reasons:

1. The students failed to meet the academic requirements.
2. Students lose their status as active students, if the student violates the university's rules.

The screenshot shows the Bidikmisi website's FAQ section. At the top, there are navigation links: "TANYA JAWAB", "PETUNJUK TEKNIS", and "KISAH INSPIRATIF". The main heading is "PERTANYAAN UMUM SEPUTAR BIDIKMISI". Below this is a search bar with the placeholder text "Tulis pertanyaan..." and a green "CARI JAWABAN" button. The main content area displays a question: "Nilai IPK turun, apakah status saya sebagai penerima Bidikmisi akan dicabut (penghentian bantuan)?" with a "Share 10" button below it. To the right, there is a list of other frequently asked questions and their respective view counts.

Apakah Bidikmisi Gratis?	480279
Apakah Bidikmisi itu? Kenapa bukan disebut Beasiswa?	530711
Apakah bisa mengubah pilihan jalur seleksi di laman pendaftaran Bidikmisi?	177057
Apakah bisa perberui data nama & tanggal lahir dan kondisi ekonomi?	178960
Apakah KAP dan PIN untuk SIMPTN 2019 masih ada?	97558
