[10.6.6] Support for underrepresented groups

Provide mentoring, counselling, or peer support programs to support students, staff, and faculty from underrepresented groups.

Event of Provision for Adapting to Early College Life and Academic for Adik Receivers in 2019

Graph of the distribution of Higher Education Affirmation Scholarship Program Awardees

Description :

Universitas Indonesia provides mentoring, counselling, peer support programmes to support students, staff, faculty from underrepresented groups. Universitas Indonesia has a coaching program for students who receive Affirmation Scholarship (aDik) especially for students who come from the 3T, frontier, outermost, least developed region (Tertinggal, Terdepan, Terluar) area. The assistance and coaching are expected to be able to stimulate a positive character which will later be useful for these students when they later face the challenges of life outside the campus. In addition, this coaching aims to strengthen relationships between students so as to train them to openly discuss with other parties and share problems and be able to come up with ideas and solutions, be able to understand self-potential, recognize self-strengths and weaknesses, and self-discipline.
