

THE Impact Rankings Questionnaire

University : Universitas Indonesia
Country : Indonesia
Web Address : ui.ac.id

[11} SDG11: Sustainable Cities and Communities
[11.4] Sustainable practices
[11.4.9] Building on brownfield sites

Universitas Indonesia has new buildings on brownfield sites, Teaching Laboratory and Workshop Building, Purnomo Prawiro Hall and Sports Facilities Building (SOR) to support student facilities and activities at UI. In addition, these new buildings are adopting sustainable building construction standards.

Such as in Teaching Laboratory and Workshop Building use smart technology and green building principles. It is eco-friendly and energy-efficient in its lighting management and air circulation. On top of that, it also implements the water harvesting technology.

UI Sports Facilities Building (SOR) is also a new building at UI that applies the green building concept with International Standard.
