- Untuk melakukan kegiatan di kawasan danau UI, maka harus mendapatkan ijin dari DPPF UI, yang diketahui oleh UPT PLK dan UPT K3L (lihat prosedur [Perizinan Penggunaan Fasilitas](#)).
- Setiap kegiatan yang diadakan di kawasan danau UI, harus memperhatikan aspek keselamatan, kesehatan kerja dan lingkungan (K3L) yang berkaitan dengan kegiatan yang akan dilaksanakan tersebut, seperti:
 - 1) Memberikan penjelasan tentang bahaya/risiko, atau potensi kecelakaan yang berkaitan dengan pelaksanaan kegiatan, seperti tercebur ke danau, dll.
 - 2) Melaporkan setiap kejadian bahaya dan kecelakaan yang terjadi saat pelaksanaan kegiatan kepada pihak terkait, seperti satpam atau UPT PLK UI ([prosedur pelaporan kecelakaan](#)).
 - 3) Dilarang memancing di kawasan danau UI.
 - 4) Menjaga kebersihan kawasan danau UI.

Prohibition of Fishing and Maintaining Cleanliness in the UI's Lake area

Clean Waste Action at UI's Lake

Vetiver nursery planting activities in Ciliwung River, Depok City

Ambassador's Declaration to Clean Plastic Waste

Tree planting, and environmental conservation activities around the UI lake

Description :

Universitas Indonesia commits to collaborate with the local community in efforts to maintain shared aquatic ecosystems. Universitas Indonesia (UI) Community Service Team together with the Research Team for the School of Strategic and Global Studies UI collaborate with the Depok Ciliwung Community (KCD) carried out Vetiver nursery planting activities in Ciliwung River, Depok City. Universitas Indonesia collaborates with Depok society to clean UI's Lake through UI Care Activity (Aksi UI Peduli). In addition, UI prohibits fishing activity and suggests society maintain UI's Lake Ecosystem through code of conduct in UI's lake area.

UI and Jasa Marga are declared as ambassadors for Cleaning Plastic Waste. This event holds Tree planting activity, releasing fish and cleaning up trash in the UI lakes. Jasa Marga targets the number of socialization and education and implementation regarding environmental preservation, especially plastic waste management.

UI also collaborates with Scouts and the Ministry of Environment and Forestry for educational, tree planting, and environmental conservation activities around the UI lake in the Pertikawan 2019 event.
