SDG: 16.2.6

### [16.2.6] Academic freedom policy

Have a policy on supporting academic freedom (freedom to choose areas of research and to speak and teach publicly about the area of their research)

#### Description :

Universitas Indonesia has a policy on supporting academic freedom. Academic freedom is one of the nine organizational values at Universitas Indonesia. An example of how this value is manifested is through the facilitation of academic publication. Universitas Indonesia publishes and funds more than 60 academic journals with a wide range of variety of focus and fields of study in the clusters of medical and health sciences, science and technology, and social and humanities. The journals have become publication channels for Indonesian and international scholars. Many of the journals are internationally recognized; four of them have been indexed in SCOPUS, one of the internationally recognized journal indices. All manuscripts submitted to the journals go through rigorous peer-review processes to make sure that the papers accepted to each journal are quality paper and adhere to scientific principles.
