Kolaborasi Penghapusan Kemiskinan
Poverty Eradication Collaboration

UI berkeyakinan terbukanya akses pendidikan tinggi yang seluas-luasnya kepada masyarakat miskin akan berkontribusi memperbaiki taraf kesejahteraan hidup masyarakat. Sesuai dengan Peraturan Menteri Riset, Teknologi, dan Pendidikan Tinggi Republik Indonesia Nomor 60 Tahun 2018, Universitas Indonesia (UI) sebagai Perguruan Tinggi Negeri aktif mencari dan menjaring calon mahasiswa yang memiliki potensi akademik tinggi, tetapi tidak memiliki banyangan finansial yang baik. Penjaringan mahasiswa ini tentama dilakukan di wilayah terdepan, terluar, dan tertinggal (3T) untuk diterima paling sedikit 20 persen dari seluruh mahasiswa baru yang diterima dan tersebar pada semua program studi.

Dalam melakukan penjaringan mahasiswa tersebut, UI melakukan sosialisasi ke wilayah-wilayah yang diperkirakan masyarakatnya belum dan perlu mengenal UI, termasuk ke wilayah 3T. Kegiatan sosialisasi ini telah berlangsung sejak 2016.

UI believes that opening up access to tertiary education for the poor will contribute to a better people's welfare. In accordance with Regulation of the Minister of Research, Technology and Higher Education of the Republic of Indonesia Number 60 Year 2018, Universitas Indonesia (UI), as a State University, actively seeks out and reaches out to prospective students of high academic potential with no financial advantages. These students are mainly from the frontier, outermost, and disadvantaged regions (3T) in which a minimum of 20 percent will be admitted for all study programs.

During the student selection process, UI introduced itself in areas where UI was least known, including the 3T areas. This has been going on since 2016

Description:

University's sustainability report is published annually (2018 and 2019). The report consists of all efforts by the university in order to achieve all SDGs. This section presents the report of the first point of the SDGs, No Poverty, as part of the annual university's sustainability report.

This section also provides some evidence of the university's action to achieve SDG 1. Universitas Indonesia helps its students' financial problem by implementing the just Educational Aid Program. The tuition payment can be adjusted to the student's financial capability through an appeal process to the Directorate of Student Affairs. The directorate will then do a data verification of the student.

Each year, Universitas Indonesia through the Directorate of Research and Public Service holds public service events (PENGMAS) as a way to show attention towards the public. This includes Science and Technology for Public and UI Action for the Nation (Aksi UI untuk Negeri, which includes *Go Green*, *Ramah Anak*, and Disaster Risk Reduction Program).
