INFO MAGANG

8,000 Participants Attend UI Career & Scholarship Expo
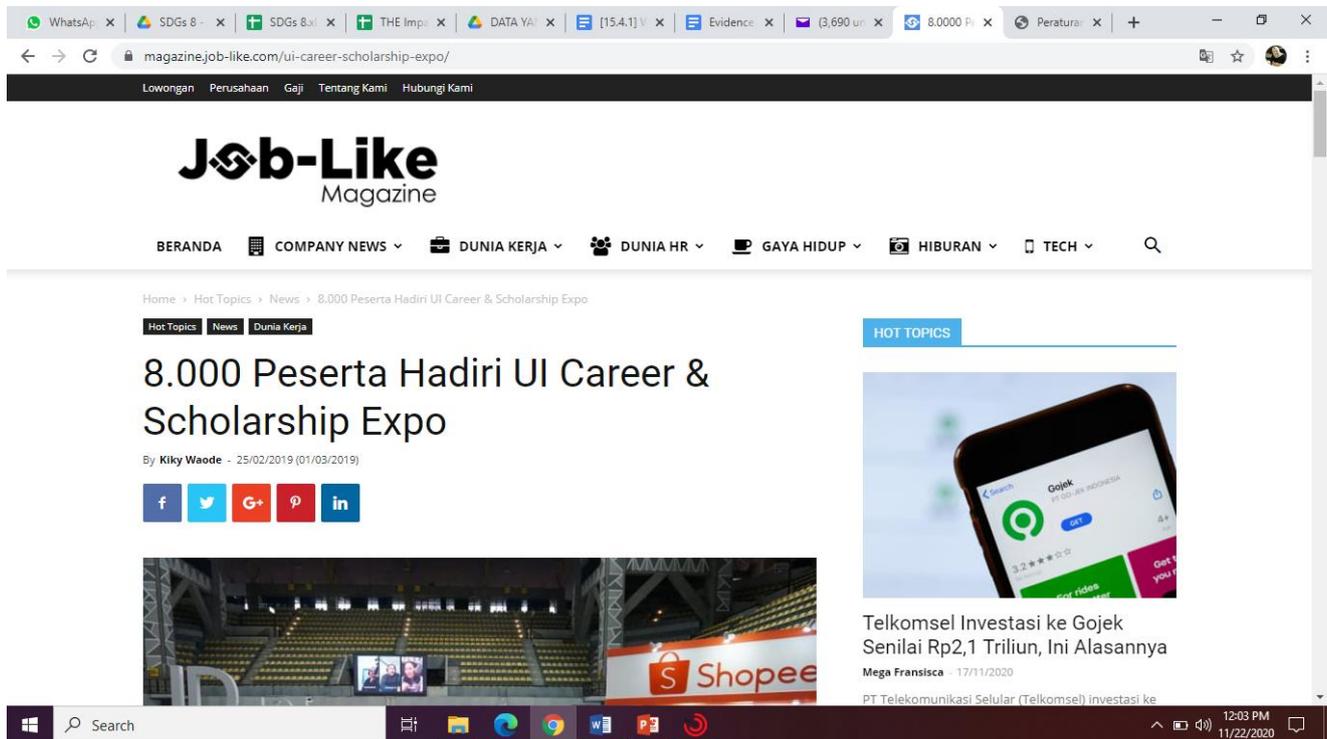

Description:

University's sustainability report is published annually (2018 and 2019). The report consists of all efforts by the university in order to achieve all SDGs. This section presents the report of the fourth point of the SDGs, Quality Education, as part of the annual university's sustainability report.

This section also provides some evidence of the university's action to achieve SDG 4. To support the fourth point of the SDGs, Universitas Indonesia has a work unit named Career Development Center, often abbreviated as CDC. This unit bridges students who are looking for an internship or a job with companies looking for new interns and/or employees. Students can register as members with the benefit of receiving information about new internship info or job vacancy.

CDC UI has an annual program called Career Expo, which aims to encourage the career development of UI alumni. This event is held in accordance with CDC UI's mission, which is to facilitate UI alumni to chase their career, to be an entrepreneur, or even to continue their studies so that UI does not only graduate bachelors but also accompany its graduates to achieve their dreams. In 2019, CDC UI held the 27th UI Career & Scholarship where 72 national and multinational companies participated. Other 10 education institutions and scholarship providers also participated in for the students who decided to pursue a masters or doctoral degree. In 3 days, at least 8,000 people joined UI Career & Scholarship Expo XXVII.
