Spekun: The First “Bike Sharing” in Indonesia — Collaboration of UI and Telkomsel

Oleh admin | Tanggal Kamis, Maret 15 th, 2018 | no Comments | @F3 Berita

Universitas Indonesia (UI) dan Telkomsel menjadi yang pertama di Indonesia dalam melakukan uji coba implementasi teknologi NB-IoT (*Narrowband Internet of Things*) di dalam sistem *bike sharing* kampus. Teknologi ini akan diterapkan di ekosistem sepeda kuning (*Spekun*) di kampus UI Depok.

Soft launching inovasi *Spekun* ini dilakukan pada Rabu (14/3/2018) di area Perpustakaan UI Depok dengan memperkenalkan teknologi *bike sharing* generasi keempat plus (4+), yang merupakan penyempurnaan dari sistem *bike sharing* generasi keempat. Teknologi ini merevolusi sistem *bike sharing* manual generasi sebelumnya.

Description:

University’s sustainability report is published annually (2018 and 2019). The report consists of all efforts by the university in order to achieve all SDGs. This section presents the report of the ninth point of the SDGs, Industry, Innovation, and Infrastructure, as part of the annual university’s sustainability report.

This section also provides some evidence of the university’s action to achieve SDG 9. *Spekun*, (an abbreviation of *Sepeda Kuning*—Yellow Bike) which has started since 2008, is a commitment from Universitas Indonesia to implement its vision as a Green Campus. UI is also the first university in Indonesia which has the campus bike ecosystem as well as its bike route. Universitas Indonesia successfully reached the 23rd position in the Green Metric World University Rankings. This ranking is a global ranking that rate the commitment of a university in their living ecosystem and environment on their campuses.
