### Description:

Universitas Indonesia has schemes to support poor students from low or lower-middle income countries. For example UI cooperates with the Directorate General of Higher Education in organizing Developing Countries Partnership Scholarship Program. This program provides financial aid for students coming from various developing countries to develop their knowledge and competencies that will subsequently enhance their chances to fulfill those roles back in their home countries. In 2019, the scholarship was granted to 12 graduate students from Uganda, Burundi, Palestine, Philippines, Senegal, Syria, Pakistan, Sudan, Madagascar, Bosnia,

Thailand, and Ethiopia. On top of financial aid for education and living cost, this program also grants health insurance and Indonesian courses for the students.
