Socialization of UI's Nine Values

Description :

Universitas Indonesia through the Directorate of Human Resources and the Bureau of Transformation, Risk, Evaluation, and Monitoring as diversity and equality officer are continuously socializing the nine values of UI as organizational culture to all members of UI. Other than that, agents of change are also formed for every work unit to keep socializing and implementing the values of UI. One of the values of UI is just and fair which means to be fair without any discrimination.

Just and Fair is one of the values of Universitas Indonesia. just and fair is shown through the act of giving equal chance and treatment for every member in doing their own duties, this includes developing academic events or any kind of events, not based on consideration of race, ethnic, religion, marital status, age, disability, and sexual orientation.
